## Tirapy – Dynamic Meditation Training with Tiraball Flow

TIRAPY founded by Master Titan consists of different tai chi movements, engineered with medical concepts in mind, using basic and simple techniques from Chinese medicine to balance our hormones and our over stimulated stress response. After a 1 hour class using Tiraball, participants will fully understand the basic techniques of TIRAPY for their daily 6 minutes practice, compared to traditional Tai Chi or Qigong,

The simple accessible 4-2-1 system Tirapy training with 4 basic movement patterns is designed to improve the functioning of the lymphatic and digestive systems, the lungs, and the liver.

Plus 3 additional elements. It only takes 12-15 minutes practice each day to maintain a healthy flow state.

This makes it accessible, smart and easy to fit into our increasingly busy demanding lifestyles.

These cover 7 elements described below;

1. TB1 Lymphatic Palm
2. TB2 Empowering Digestion
3. TB3 Lung Booster
4. TB4 Liver Cleanser
5. TB5 Spine spiral
6. TB6 Lymphatic Kick
7. TIRABALL +1 training Using the Tiraball for metabolic optimisation and **dynamic meditation**.

Tirapy system with Tiraball focuses on **dynamic meditation**, which is controlling our breath, heart rate, neuroendocrine system, para-sympathetic system and immune system for cellular recovery. This practical, simple, and effective concept is derived from traditional Chinese medicine 5000 years ago. Wudang Tai Chi and Qigong provide the slow and low impact exercise for dynamic meditation.

Join the Tiraball spinning revolution with this incredibly effective form of Tirapy Training from the Far East – I am currently one of only a handful of certified trainers in the UK.
